

INFORMATION SECURITY POLICY

- We ensure the integrity and security of the information of our clients and partner organizations, and we identify and implement measures to prevent all types of threats in advance.
- We strictly comply with the Law on Cybersecurity, the Law on Personal Data Protection, other laws of Mongolia, and the rules, regulations, and standards issued by regulatory authorities.
- To ensure the confidentiality and security of information, we identify the channels through which information could be lost, regulate the processes of using, transmitting, and destroying information, establish an Information Security Management System in accordance with MNS ISO/IEC 27001:2023, implement oversight, and continuously improve it.
- As part of our commitment to becoming one of the leading organizations, we continuously learn from international standards and develop and improve the knowledge and skills of our employees.
